Benjamin,

Thank you for providing Authenticom's revised privilege and redaction logs. We understand that the Stipulation entered by the Court on January 15, 2019 requires that meet and confers on various privilege log issues occur by February 20, 2019. However, due to scheduling conflicts on our end, we are unable to convene today. Defendants propose a global meet and confer on all outstanding privilege log issues tomorrow. We are available between 11 am and 3 pm Central. Please let us know if that works for Plaintiffs and, if so, what time you'd like to start.

We would like to discuss on a meet and confer our continuing concerns with the logs, including following issues:

1. The revised privilege and redaction logs contain third-party senders and recipients. We would like to discuss the reasons for Authenticom's view that those third parties do not break privilege.
2. The revised privilege and redaction logs contain distribution lists. We would like Authenticom to comply with the parties' global agreement to identify the current purpose of each list and the current number of people on each list.
3. The revised privilege and redaction logs contain assertions of common interest. Where asserted in the log, we would like Authenticom to explain the basis for common interest.
4. The revised privilege and redaction logs contain entries described as communications that, in contravention of the ESI stipulation, do not identify the author or recipient of the communication.

We look forward to discussing these and other issues during a meet and confer.

Regards,

James

James T. Coleman
